ZHIHAO XIA

zxia@adobe.com ⋄ https://likesum.github.io

RESEARCH INTERESTS

My research interests include computer vision, computational photography, and machine learning. I am particularly interested in building methods that can recover different aspects of visual appearance (geometry, light, colors, etc.) from images, by using both physics-based reasoning and machine learning.

EDUCATION

Washington University in St. Louis   *Sep 2017 - Jun 2021*
Ph.D. in Computer Science & Engineering   Advisor: Ayan Chakrabarti

University of Science and Technology of China   *Sep 2013 - Jun 2017*
B.S. in Computer Science, School of the Gifted Young
Honor: National Scholarship (Top 2%)

EXPERIENCE

Adobe   Jun 2021 - Present
Research Scientist II   *CA, USA*
· Using computational photography and machine leanring to build next-gen camera for mobile devices.

Google Research   May 2020 - Dec 2020
Research Intern   *WA, USA*
· Worked with Supreeth Achar and Jason Lawrence on face relighting and normal estimation under challenging visible light environments by supplementing a near-infared image.

Adobe Research   May 2019 - Aug 2019
Research Intern   *CA, USA*
· Worked with Federico Perazzi, Michaël Gharbi, Kalyan Sunkavalli on Basis Prediction Networks.
· Research was transferred into products and published in CVPR 2020.

Washington University in St. Louis   Sep 2017 - Jun 2021
Research Assistant   *MO, USA*
· Member of WashU vision and learning group directed by Prof. Ayan Chakrabarti.
· Computer Vision, Computational Photography and Deep Learning.

King Abdullah University of Science and Technology   Jan 2017 - May 2017
Visiting Student Researcher   *Jeddah, SAU*
· Worked with Prof. Xin Gao on recognition of polyadenylation signal (PAS) in human and mouse genes with CNN.

National University of Singapore   July 2016 - Nov 2016
Visiting Student Researcher   *Singapore*
· Worked with Prof. Richard Ma on investigating Internet topology with Multiple Hidden Markov Chains.

University of Science and Technology of China   June 2015 - June 2016
Undergraduate Research Assistant   *Hefei, China*
· Topic diffusion analytics in social media based on machine learning.

SKILLS

Python: Numpy, Tensorflow, PyTorch. C/C++. Matlab

SERVICE

- Reviewer for IJCV, TIP, CVPR (2021), ICCV (2021, 2019), IJCAI (2021, SPC), WACV (2020)

- Assistant to Instructor, WashU Fall 2018 CSE 559A: Computer Vision. Developed and held recitation lectures, assisted with grading, staffed office hours to assist students

- Co-organizer: WashU CS Graphics, Vision, and Imaging Seminar, Fall 2019 and Spring 2020
